Work Experience

Akamai Technologies

Performance Engineer - Global Performance And Operations

Bangalore, India

Jul. 2019 - Jul. 2021

- Developed solutions to optimize performance metrics like throughput, content offload and latency across the platform
- Developed systems for efficient data mining and visualizations from raw log data
- Helped scale and prepare the Akamai platform and run final checks for company critical events such as the IPL cricket league and the Apple WWDC keynote driving up to 10 Tbps of traffic in a single country.
- Mentored 2 interns during the development of their respective projects and presentations

Akamai Technologies

Intern - Platform & Delivery

Bangalore, India

Jan. 2019 - May 2019

- Built a system to help root cause analysis by performing correlation across time series data
- Created tools to help visualize network traffic demand across countries for a set of servers
